# Connect with buyers. Build partnerships. Win business

Transport Evolution Africa exists to help suppliers and service providers grow in Africa's transport and logistics market. Exhibiting gives you direct access to government stakeholders, project owners, operators and investors who are driving real projects across the region.

The event is more than a showcase, it's where decisions are made, deals are discussed and partnerships take shape. Exhibitors use the platform to launch new products, meet procurement teams face-to-face and secure a stronger position in one of the continent's fastest-growing markets.

Co-located with the South Africa Infrastructure Expo, the event connects you with an even wider network of decision-makers across roads, ports, rail and airport infrastructure all in one place.

## Increase your visibility in South Africa's transport infrastructure sector:

- Meet qualified buyers and project owners
- Build strong relationships through face-to-face meetings
- Generate leads and grow your regional footprint

**Enquire now** and take the lead in driving South Africa's infrastructure transformation.

“ Events like these are vital platforms that bring together thousands of attendees and more than 100 exhibitors. They offer an exceptional opportunity to embrace innovation and use it to accelerate growth across the continent's transport and logistics sectors. ”

Dr. Bheka Zulu, CEO, Tshwane Special Economic Zone

# Transport infrastructure project pipeline

With major upgrades underway across rail, road, port, and airport infrastructure, exhibiting puts your business at the centre of new contracts, supplier opportunities and long-term industry growth.

## PRETORIA JOHANNESBURG DURBAN RAILWAY

**South Africa**

A high-speed corridor linking Johannesburg and Durban to improve trade, tourism and regional mobility.

**Status:** Feasibility stage

**Investment:** \$15bn

## DURBAN PORT EXPANSION

**KwaZulu-Natal**

Upgrades to South Africa's busiest port, including new terminals and road access, to increase capacity and efficiency.

**Status:** Underway (phased development through 2030)

**Investment:** \$7.9bn

## CATO RIDGE DRY DEVELOPMENT PROJECT

**KwaZulu-Natal**

An inland logistics hub designed to ease Durban port congestion and reduce freight costs.

**Status:** In progress

**Investment:** \$1.3bn

## N2 WILD COAST ROAD

**Eastern Cape**

A 410 km route connecting East London to KwaZulu-Natal, improving regional access and stimulating local job creation.

**Status:** Under construction (completion expected by 2028)

**Investment:** \$540mn

## CAPE WINELANDS AIRPORT EXPANSION

**Western Cape**

A R7.7bn redevelopment creating the province's second international airport with passenger and cargo facilities.

**Status:** Approved, construction set to begin 2026

**Investment:** \$373mn

**Enquire now** to exhibit and engage directly with decision-makers driving South Africa's transport development.

# A multi-platform event

## EXHIBITION: WHERE BUSINESS GETS DONE

Together with the South Africa Infrastructure Expo, Transport Evolution Africa hosts the exhibition floor where 120+ suppliers from over 25 countries meet more than 6,000 transport infrastructure professionals. It's the central meeting place for buyers, project owners, and investors driving the growth and connectivity of Southern Africa's transport network.

## SOUTH AFRICA INFRASTRUCTURE FORUM

30+ speakers

This high-level forum is the country's leading platform, bringing together policymakers, investors, state-owned enterprises, financiers and industry leaders. It focuses on strategic outcomes, impactful dialogue and meaningful connections that advance South Africa's \$198.59 billion transport infrastructure agenda. For exhibitors, it's a direct channel to engage with decision-makers shaping future investments and project priorities.

## INFRA 360 WORKSHOPS

Position your brand at the centre of industry learning by sponsoring technical workshops that build capability, share best practices and highlight practical solutions. These sessions offer a platform to demonstrate your expertise and engage directly with professionals driving the implementation of infrastructure projects across South Africa.

## CEO FORUM

50 CEO's from across the African infrastructure value chain, including both public and private sector will meet to address leadership challenges and share their experiences with peers across Africa.

*By invitation only.*

## SEZ LOUNGE

The Special Economic Zones lounge will highlight key infrastructure project pipelines designed to attract investment and foster partnerships between government and the private sector. It offers companies a chance to explore significant business opportunities within South Africa's Special Economic Zones.

“Exhibitions like this are vital for our marketing efforts. The event attracts a high number of attendees, giving us strong visibility and valuable engagement opportunities.”

Edwin Briggeman, Director, Briggeman International

# What to expect

As part of the larger South Africa Infrastructure Expo, Transport Evolution Africa gains wider reach, cross-sector connections and access to high-impact sponsorship opportunities across the South Africa Infrastructure Forum, CEO Forum and Infra360 workshops.

## Why exhibit or sponsor?

Put your business at the centre of South Africa's transport infrastructure growth. Exhibiting or sponsoring gives you direct access to decision-makers, buyers and partners who are actively seeking solutions, expertise and innovations. It's your chance to build influence, expand your network and secure new business.

### BUILD YOUR NETWORK:

Engage with South Africa's top transport infrastructure professionals.

### GENERATE QUALIFIED LEADS:

Meet the transport and logistics industry's power players who are actively looking to secure new suppliers, partners and service providers.

### HIGHLIGHT THOUGHT-LEADERSHIP:

Align your brand with market-leading experts and take to the stage for discussions, debates and case studies to share your expertise with an engaged audience.

### DEMO YOUR NEW TECH:

Showcase your technologies to an audience looking for innovations that solve their challenges.

### WIN NEW BUSINESS

Generate new leads and secure contracts by connecting with the companies and investors driving infrastructure development across Southern Africa.

Explore new markets and grow your business. **Start your enquiry today.**
